

ERTICO – ITS Europe is a dynamic public-private partnership uniting up to 120 members service providers, suppliers, traffic and transport industry, research institutions, public authorities, user organisations, connectivity industry, and vehicle manufacturers. We envision a transport ecosystem that leverages digitalisation, automation, and connectivity to benefit people, the environment, and the economy. As a leading voice in Intelligent Transport Systems (ITS), we empower intelligent, safe and resilient mobility for an inclusive and sustainable society. We contribute and facilitate innovative solutions and services through EU-funded projects, innovation platforms, international cooperation, advocacy, and the flagship ITS Congresses.

We are currently seeking to recruit a full-time position for our Innovation & Deployment Department

SENIOR PROJECT MANAGER

Specialised in Intelligent Transport Systems (ITS): Green and Sustainable Urban Mobility

Reports to: Head of Green and Urban Area, Innovation & Deployment

Location: Brussels, Belgium (Hybrid Work Model)

Contract Type: Full-time, Permanent

The Senior Project Manager is a key leadership role within the Innovation & Deployment department, responsible for the end-to-end management of one or more Horizon Europe projects with a focus on Green and Urban Mobility. The SPM oversees project delivery, ensures alignment with ERTICO's strategic goals, and leads the development of new project proposals and initiatives. This role involves cross-functional coordination with other departments and proactive engagement with stakeholders and ERTICO partners, contributing to growth of ERTICO network.

Your main responsibilities:

Horizon Europe Project Management & Delivery

- Lead the planning, implementation, and delivery of Horizon Europe and other EU-funded projects related to Green and Urban Mobility.
- Ensure timely achievement of project milestones, deliverables, and KPIs.
- Manage project budgets, resources, risks, and reporting requirements.
- Coordinate project teams across I&D and other internal departments, assigning responsibilities and ensuring high-quality outputs.
- Liaise with the European Commission and other funding bodies as required.

Horizon Europe Proposal & Business Development

- Identify funding opportunities and lead the preparation and submission of high-quality project proposals aligned with ERTICO's mission and strategy.
- Develop and maintain relationships with existing and potential partners, including cities, industry, academia, and public authorities.
- Actively contribute to the development of new ideas, pilots, or research activities under the Green and Urban Mobility agenda.

Stakeholder Engagement & Strategy Contribution

- Contribute to ERTICO's strategic direction in Green and Urban Mobility, supporting the development and promotion of ITS innovative solutions in this domain.
- Contribute to success of ITS Europe and World Congress organised by ERTICO and represent ERTICO at external events, conferences, and stakeholder forums, acting as a subject-matter expert.
- Support the growth and engagement of ERTICO's partnership network in the green and sustainable urban mobility domain.

Qualifications we require:

Essential:

- Master's or PhD degree in Engineering, Urban Mobility, Transport Planning, Environmental Science, Public Policy, or a related field.
- Minimum of 15 years of relevant professional experience, with at least 7 years in EU project management (preferably Horizon Europe or H2020).
- Proven track record of managing complex, multi-stakeholder projects, including budgeting, reporting, and coordination.
- In-depth understanding of smart mobility, sustainable urban transport, ITS, and CCAM.
- Strong knowledge of the EU policy landscape and funding programmes, including ECAS platform.
- Excellent communication, presentation, and stakeholder management skills.
- Fluent in English (spoken and written); additional EU languages are an asset.

Desirable:

- Excellent knowledge of Project Management Tools, PMP or PRINCE2 certification or equivalent project management training.
- Experience working with or in public authorities or city transport agencies.
- Existing network of contacts in the European mobility and transport innovation ecosystem.
- Facilitator skills during proposal building process and able to build consensus

At ERTICO, our culture is rooted in strong core values which guide our daily ambition and drive the meaningful work we do with our Partners across the transport and mobility sector. **As part of our team, we offer:**

- An excellent working opportunity in a dynamic international environment with a multi-cultural team
- An attractive extra-legal benefit package along with the salary
- A culture of continuous learning and visionary working atmosphere where we empower our team members to grow, innovate, and adapt to the ever-changing mobility landscape
- A work environment based on intellectual curiosity where our values (cooperative, passionate, impactful, open and visionary) embrace everything we do to achieve our vision
- A highly skilled team with diverse expertise and "learn-it-all" mindset
- A visionary working atmosphere which aims to be positively impactful for you, your skills and career development

Please send your **CV** and **motivation letter** to recruitment@mail.ertico.com

We aim to ensure a transparent, respectful, and inclusive recruitment process as an **equal opportunity employer** committed to diversity and inclusion. All qualified applicants are considered regardless of background or identity. All applicants receive a formal acknowledgement of their submission. The successful candidates will be invited to a first interview with the prospective supervisor
